All iron and steel works in Bohemia and Moravia were subordinate to the three big corporations: 1) Vitkovice Iron Works, 2) Mining and Iron Works, and 3) United Steel Works. But in summer of 1949 there was ordered a new organization, according to which the Board of Directors of these three corporations were dissolved and the works were subordinated directly to the general board of directors in Prague. Consequently the Vitkovice Iron Works Corporation returned without any change, the general director board of Mining and Iron Works corporation was dissolved and big plants were subordinate direct to Dr. Jicinaky.
